medi-inn CLASSIC Incontinence Care

Reliable Solutions for Everyday Life and Care

Reliable Incontinence Care in any Situation

Incontinence products must meet the highest standards – they should offer safety, be comfortable to wear and make everyday life easier. Our carefully compiled range includes high-quality pads, shaped briefs, pants and fixation pants that are suitable for both home and professional care. With this selection of products, we offer practical solutions that combine discreet protection with excellent wearing comfort.

medi-inn CLASSIC – Quality You Can Rely on

Our medi-inn CLASSIC incontinence products appeal for their proven quality and well-thought-out functionality. They support carers and family members by ensuring easy handling and high hygiene standards. Our range enables us to help people affected by incontinence to maintain their quality of life and feel secure in everyday life.

About BODY PRODUCTS

BODY PRODUCTS offers a carefully selected, comprehensive portfolio of more than 2,000 medical devices and healthcare products. Our range covers the areas of protection, hygiene, diagnostics, and continence care. It includes high-quality medical aids, ward and practice supplies, as well as first aid products. A further key focus is on disposable protective clothing. Innovative solutions for highly specialized medical applications – such as endoscopy, surgery, and urology – complete our portfolio.

Tested Quality

We place the highest importance on quality and performance across all our products. Therefore, they are thoroughly tested. Our quality management system is certified according to DIN EN ISO 13485 and thus meets the stringent requirements for medical devices. Sustainability is also firmly anchored in our corporate philosophy: we are certified according to the environmental standard DIN EN ISO 14001, regularly have our sustainability performance assessed by EcoVadis, and have documented our voluntary commitment in the German Sustainability Code (DNK).

medi-inn CLASSIC Pads

medi-inn CLASSIC incontinence pads offer reliable absorbency and ensure protection throughout the day. Thanks to their unisex design, they are equally suitable for men and women with mild to moderate incontinence. The pads are breathable and odour-binding to ensure maximum comfort. A practical adhesive strip on the underside keeps the pad securely in place in underwear. The packaging is perforated to allow easy and hygienic removal of individual pads.

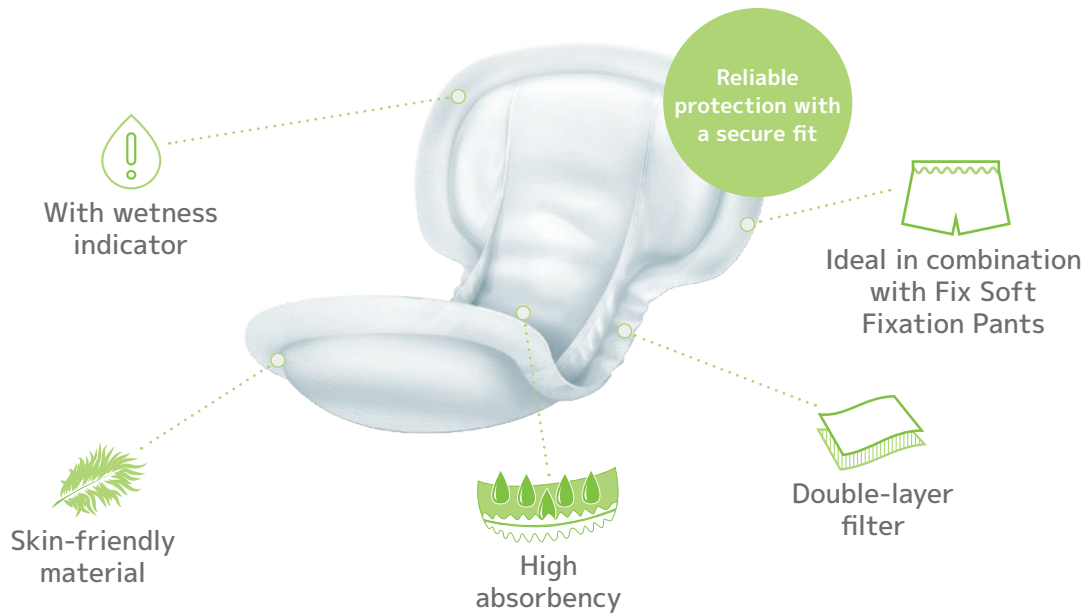

- Shaped disposable pad
- Unisex fit
- Odour-binding and breathable
- Latex-free
- Colour-coded packaging for easy absorbency level identification
- Non-sterile
- Class I medical device in accordance with Regulation (EU) 2017/745

Item number	Product	Colour coding for absorbency levels	Absorbency according to ISO 11948-1	Multipack	Contents of one shipping unit (SU)
N18552	medi-inn CLASSIC Pads NORMAL	👉	310 ml	28 pieces	168 pieces (6 x 28 pcs.)
N18553	medi-inn CLASSIC Pads PLUS	👉👉	410 ml	28 pieces	168 pieces (6 x 28 pcs.)
N18555	medi-inn CLASSIC Pads MAXI	👉👉👉	820 ml	28 pieces	168 pieces (6 x 28 pcs.)

medi-inn CLASSIC Shaped Pads

medi-inn CLASSIC shaped pads offer reliable protection for individuals with incontinence and help to maintain a dry and comfortable skin feeling. Thanks to their breathable materials and odour-binding properties, they provide maximum comfort and discretion – for both women and men with moderate to heavy incontinence. The integrated wetness indicator makes handling easier by indicating when a change is required. For optimum support and a perfect fit, we recommend pairing the shaped pad with our washable fixation pants. This keeps the pad securely in place and ensures reliable protection – day and night.

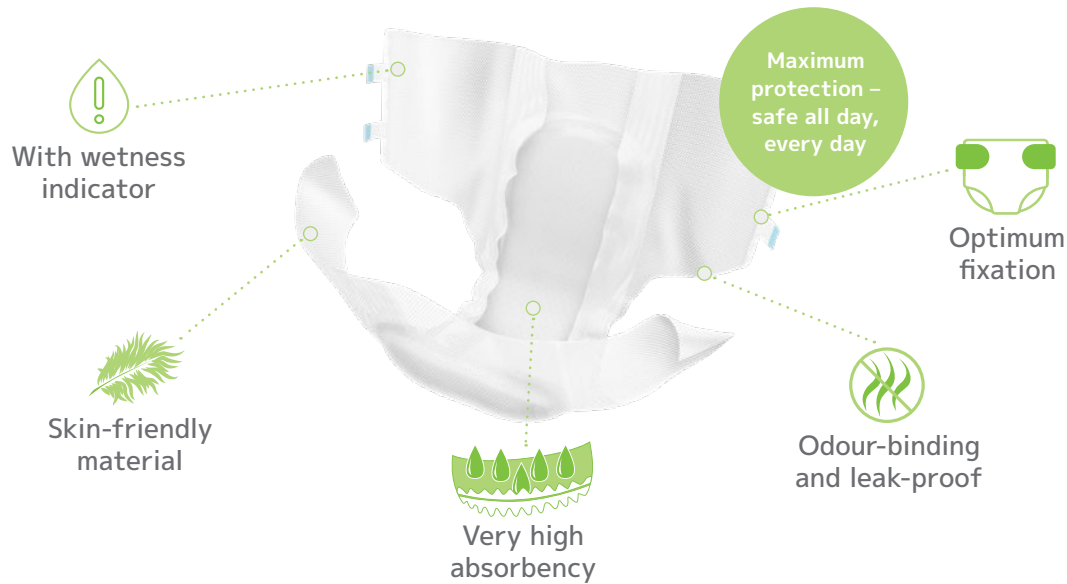

- Anatomically shaped disposable pads
- With wetness indicator
- Unisex fit
- Odour-binding and breathable
- Latex-free
- For secure fixation, we recommend combining them with our washable fixation pants
- Colour-coded packaging for easy absorbency level identification
- Non-sterile
- Class I medical device in accordance with Regulation (EU) 2017/745

medi-inn CLASSIC Incontinence Slips

medi-inn CLASSIC incontinence slips (also known as briefs) offer reliable protection against incontinence – both during the day and at night. The unisex fit means they are equally suitable for men and women with heavy to very heavy incontinence. The briefs are breathable and odour-binding to ensure a comfortable fit. An integrated wetness indicator shows when a change is needed, making care easier. The adjustable, reclosable straps on the sides ensure optimum fastening, enabling a secure fit and individual adjustment.

- Shaped disposable incontinence slips
- With wetness indicator
- Unisex fit
- Odour-binding and breathable
- Latex-free
- Fixation: Adjustable, reclosable tabs on the sides
- Colour-coded packaging for easy absorbency level identification
- Non-sterile
- Class I medical device in accordance with Regulation (EU) 2017/745

medi-inn CLASSIC Pants

medi-inn CLASSIC Pants provide reliable protection for incontinence while offering the comfort of regular underwear – ideal for women and men with light to moderate incontinence. They are breathable, odour-neutralising, and latex-free, and ensure a secure and comfortable fit thanks to the high elastic waistband. The unisex fit allows for discreet wear, while the colour coding makes it easy to select the appropriate absorbency level. FSC®-certified materials and the Dermatest® seal “Excellent” confirm the high product quality.

- Disposable incontinence pants
- High elastic waistband for a comfortable fit
- Unisex fit – wearable like regular underwear
- Odour-neutralising and breathable
- Latex-free
- Colour coding on the packaging for easy identification of absorbency levels
- FSC®-certified materials
- Dermatologically tested – Dermatest® seal “Excellent”
- OEKO-TEX® Standard 100
- Non-sterile
- Class I medical device according to Regulation (EU) 2017/745

medi-inn CLASSIC Fix Soft Fixation Pants

Our reusable, elastic medi-inn CLASSIC Fix Soft Fixation Pants have been specially developed for the secure and hygienic fixation of absorbent incontinence products. They ensure a secure fit and prevent the pad from slipping – providing maximum protection and comfort. The latex-free unisex fit moulds comfortably to the body, and is a discreet, reliable solution for everyday wear. The practical colour coding on the inside makes it easy to distinguish between the various sizes, ensuring the optimal fit for each person.

- Reusable elasticated fixation pants
- Washable at 60°C in a laundry bag
- Unisex fit
- Latex-free
- Colour coding on the inside for easy sizing
- OEKO-TEX® Standard 100
- Non-sterile
- Class I medical device in accordance with Regulation (EU) 2017/745
