medi-inn[®] CLASSIC Protective Gowns

Professionally Dressed.
Reliably Protected.

Reliable Protection in Hygiene Critical Environments

Medical protective gowns must meet the highest standards: They need to reliably protect against contamination, provide comfort during long hours of wear, and allow maximum freedom of movement. Our carefully curated assortment includes visitor gowns, protective gowns with partial or full lamination, as well as isolation gowns PPE Category III – offering the right solutions for wide range of applications in hospitals, nursing care, industry, and laboratories.

medi-inn® CLASSIC – Quality You Can Trust

The medi-inn® CLASSIC protective gowns stand for tested quality, functional design details, and excellent price-performance ratio. With a wide range of styles and sizes, our gowns provide optimum freedom of movement. Thoughtfully selected materials, practical closure solutions, and ergonomic cuts provide reliable support for healthcare professionals in their daily work.

About BODY PRODUCTS

BODY PRODUCTS offers a carefully selected portfolio of more than 2,000 medical devices and healthcare items. Our range covers protection, hygiene, diagnostics, and continence care – including high-quality aids, supplies for wards and practices, as well as first aid. Another focus lies on disposable protective clothing. Innovative solutions for highly specialized medical fields such as endoscopy, surgery, and urology complete our portfolio.

Proven Quality

As a supplier of medical devices, protective medical clothing and hygiene products, we take our responsibility seriously. That's why we select our portfolio with the utmost care and ensure that all our products are tested for quality and performance. Our quality management system is certified according to DIN EN ISO 13485, meeting the strict requirements for medical devices. Sustainability is also a core part of our corporate philosophy: we are certified according to the environmental management standard DIN EN ISO 14001, our sustainability performance is regularly assessed by EcoVadis, and we have documented our commitment in the German Sustainability Code (DNK).
